

OK sports fans....here's the list. I actually have to thank Charles Compton who put the initial Master List together. I added some additional pins and took out crafts items that are beautiful but don't really qualify as pins. I did include "buttons" since they seem to fit my definition of "a pin".

If you know of a pin that I have not listed, please let me know. If you know where the "UNKNOWN" pins at the end of the list are from, also PLMK.

I will send out my list of pins that I still need (want) along with some comments about this years pins and some suggestions as to how to make things better next year asap.

Hope you all have a great summer.....and remember, no matter where you go, there you are! 8+)
