

D2K.Six Official Pin List

Dear Pinheads,

Here is the Master List for D2K.Six. Those pins that I know that I am missing are underlined and in bold text. I have made tentative trades for some of them. The pin that I can't seem to track down is the Corpus Christi Red Phoenix. There were a limited number of them available and the team chose to release them on Sat (a dubious practice IMHO). Unfortunately, there was not enough time to track them down. If I had had several days, I'm sure that I could have found one. If anybody has a lead on one or knows the TM of the team that brought them PLMK. Otherwise, take a look at the list and LMK what pins I missed 8+. I'm sure there are a few that escaped my clutches.

Thanks and stay well,

Dr. Frank
